

SensiGuard USB Vault Quick Start Guide

SensiGuard USB Vault is the ultimate flash drive security solution. It lets you keep the files and folders on USB flash drives and memory cards 100% secure. SensiGuard USB Vault needs to be installed separately on each USB drive you want to encrypt.

Installing SensiGuard USB Vault

Once SensiGuard is installed on your system, you will see two new icons on your desktop. The bottom icon is your USB Vault installation file (fig.1). Double click on the USB Vault icon to begin the installation.
